No new matter would be added to this application by entry of this amendment.

Upon entry of this amendment claims 1-25 will now be active in this application.

The present invention is directed to an acidic oil-in-water type emulsified composition. Claim 1 has been amended to more clearly recite the presence of an oil phase and an aqueous phase in the claimed oil-in-water type emulsified composition. Such an amendment is not a narrowing of the claims for the purposes of patentability as the presence of both an oil phase and an aqueous phase is implicit to an oil-in-water type emulsified composition.

Applicants submit that this application is now in condition for examination on the merits and early notification of such action is earnestly solicited.
